

WebWay

Dual Path Signalling

WEBWAY INTEGRATED MANUFACTURERS

WebWay products include integration to leading alarm panel manufacturers for the transmission of SIA protocol alarms and remote service/upload download data. WebWay products will connect to any alarm panel using channels/inputs, but this connection type does not enable remote service for the panel. Below is a list of our integrations, please call WebWay for updates or specific requirements.

Alarm panels

Castle Caretech EuroONE, EuroONE plus
Cooper M800 & 8136
Cooper M1000, M2000
